EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. The action is responsive to submissions filed 5 September 2003.

Allowable Subject Matter

2. Claims 1-31 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter:

Regarding independent claims 1, 8, 18, and 25, the prior art does not disclose or fairly suggest X-

ray detection methods or apparatus including at least an X-ray conversion (i.e., scintillator) step

or means and a photodiode sensing step or means and further including a nonlinearly absorbing

filter step or means.

The examiner notes that while radiation detectors including a light absorber are known in

the art (see for example Kuwabara – US 2001/0038076 A) are known in the art, the prior art does

not fairly suggests the use of a nonlinear absorbing filter in such detectors. The examiner

additionally notes that while it is known in the visible imaging art to use a nonlinear (i.e.,

phototropic) filter (see for example Ogawa - US 4,577,098 A), it is not apparent, absent

hindsight reasoning, that there would have been any motivation to combine the two teachings to

arrive at the present invention.

4. The remaining claims are allowed on the basis of their dependency.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure.

6. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Albert J. Gagliardi whose telephone number is (571) 272-2436.

The examiner can normally be reached on Monday thru Friday from 9 AM to 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David P. Porta can be reached on (571) 272-2444. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

7. Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
